

Shaw Trust Vocational Rehabilitation Services

Vocational Assessment

An impartial assessment undertaken by a Vocational Rehabilitation Consultant at a location convenient to the individual.

Together with identification of a vocational pathway and potential support required to secure suitable employment, information gathered from the vocational assessment will include:

- Education and training history
- Employment history details including job roles/salary
- Job searching previously undertaken
- Current health issues- symptoms and outstanding treatment
- Residual capacity and how it affects day to day activities
- Benefit details and financial income

A full report with vocational recommendations, focussing on current capacity, transferable skills, locally available vacancies and any re-training necessary will be produced. Recommendations for further rehabilitation services, if appropriate can also be provided, with estimated costs and timescales as well as an individual's eligibility for locally funded government programmes.

Vocational Assessment service standards:

- Instant automated acknowledgement of referral
- Allocation of referral maximum of next working day
- Contact and appointment made with claimant within 10 days
- Report produced within 10 days

Cost £1000
